SWIM2END SHORTAGES

Thank you for registering to save lives!

Angels for Change is excited for **you** to dive in at our 4th Annual Swim2End Shortages on Sunday, April 28th! Use this packet to help you make a **big splash** in your fundraising efforts. Every dollar you raise saves lives!

Did you know?

- **309** active drugs in shortage, a *10-year high*, was reported in 2023
- **99%** of hospital pharmacists reported experiencing drug shortages *daily*
- **85%** of oncologists say they have had to *stop* patient treatments because of a drug shortage

Imagine the one life-saving medicine you need is in shortage. This is happening to millions of patients every year. These patients are why we fundraise!

Why support Angels for Change?

Angels for Change is a locally founded non-profit. Created after our founder's daughter faced three drug shortages during her cancer treatment. Angels for Change is determined to ensure no patient would ever hear, and no doctor should ever say, "your medicines are in shortage".

Since 2022, our efforts ensured over **750,000 life-saving treatments** for U.S. patients impacted by shortages. Our work was spotlighted on CNN, Fox News, National Journal, NPR, The New York Times, STAT News, The Wall Street Journal, and many others.

**The world needs people like you who are willing to stand up,
dive in, and save the lives of patients!**
